SPADDLER

Australia's World Class Lures

Predatek MicroMin – M40, M40D

This is **Predatek's** smallest lure and it comes in a shallow version (**M40**) and an impressively deep (**M40D**) version. Perfect for enticing wary predators or those that hunt small prey. **MicroMin** is one of the smallest lures able to transmit a strong action through to your rod tip. Its frantic action grabs the attention of predators that have no hesitation in slamming it. It's small but tough, and strong enough to land quality fish from the rivers and estuaries. **MicroMin** is a favorite with bass, bream and flathead fisherman.

Predatek MinMin – M50, M50D

The **MinMin** name comes from an Australian aboriginal word meaning "something that deceives by luring" Its appropriate for this top performer. Its wake 'em up rattle, snatchable size, and nervous action demand attention from lurking predators. Cast **MinMin** along weedbeds and structure, troll it, or let it swim in the current. You'll feel its trembling action right through your rod tip. **MinMin** comes in two versions, shallow (**M50**) and deep (**M50D**). A tough little lure that floats at rest and dives on retrieve.
